CURRICULUM PATH

In the integrated core, learning is delivered through experiential interdisciplinary projects. Students build an understanding of learning strengths, explore thinking to build independence, and create powerful demonstrations of learning. A key focus is building community through shared real-world work. Projects are supported by learning partners and community.

Electives at Imagine connect with and explore areas of interests and passion. Students select quarterly elective sessions in a variety of art and technology areas in order to build skills needed to showcase learning within the integrated core. Students deepen discipline specific skills by focusing on creative and artistic processes.

Deep Dives are immersive institutes that offer opportunities for students to go deep into interests within passion areas. During the institutes, students collaborate with peers, teachers, experts, and community. These intensive learning opportunities support students to hone in on personal passion areas, explore careers, and learn with industry standard tools.

OUR GRADUATES

Since celebrating our inaugural graduating class in 2024, Imagine High has continued to see our graduates leave prepared to make meaningful contributions in their communities and beyond.

We are incredibly proud of all they have accomplished and look forward to seeing the paths they continue to forge. Our graduates have pursued university, college, trades training, apprenticeships, and direct entry into the workforce, reflecting the diverse strengths and passions of our learners.

Imagine graduates have been accepted into a wide variety of post-secondary programs, including Early Childhood Education, Engineering, Sciences, Teaching, Concept Art, Business, Health Sciences, and skilled trades. Their success is a testament to the authentic, community-connected learning experiences they engaged in throughout their time at Imagine High and the confidence they have developed to pursue their goals.

Please check out this series highlighting some of our amazing graduates in this [Grad Shorts](#) playlist.
